

Role: Technical Content Writer

Location: Mumbai (Work From Office)

Experience: 1+ Year

Company Name: PibyThree(πby3) Consulting Services Pvt Ltd.

Website: www.pibythree.com

About Us

πby3 is a cloud transformation company helping enterprises build future-ready solutions with deep technology expertise, optimized cost, reduced risk, and strong delivery ownership.

Job Summary:

We are looking for a Technical Content Writer with at least 1 year of experience in technical writing or content creation within the IT industry. The ideal candidate should be able to create engaging, accurate, and SEO-friendly content while simplifying complex technical concepts for different audiences.

Key Responsibilities:

- Create technical documentation, user guides, blogs, articles, and website content.
- Translate complex technical information into clear and user-friendly content.
- Collaborate with technical teams and subject matter experts to gather information.
- Develop SEO-optimized content to improve online visibility and website traffic.
- Ensure content quality, accuracy, consistency, and adherence to brand guidelines.
- Research industry trends and create informative content around emerging technologies.
- Contribute creative ideas to enhance content engagement and user experience.

Required Skills:

- 1+ year of experience in technical writing or content creation.
- Strong written and verbal communication skills.
- Ability to understand and explain technical concepts in simple language.
- Experience writing SEO-friendly content.
- Excellent grammar, proofreading, and editing skills.
- Familiarity with IT concepts, software, cloud, AI, data, or related technologies.
- Creative mindset with attention to detail.
